Goran Dragić

- 2 Goran Dragić
- Going back to when you started preparations for FIBA EuroBasket 2017 with the national team, did you expect to have such a successful summer?**
- We were expecting (pause)...we were hoping that we would win a medal and our goal was to win a medal. In reality, we were more targeting the third place in the tournament, but in this kind of tournaments, you never know. You can have a good day and you can have a bad one. If you play good basketball, everything is possible. We demonstrated that and we deserved to win a gold medal. We did beat all the best teams – Spain, Serbia, Latvia, France. That wasn't nothing you know. We played very well throughout the whole tournament. We enjoyed every single moment of the tournament.
- When did you guys realize that Slovenia could conquer the European crown and win it all?**
- It was probably before the start of EuroBasket. We had two games against Croatia, including one at home where we beat them by 11 points [behind closed doors] and another one where it was a close game in front of the fans and the media. Croatia is a great team and has plenty of talented guys. I would say those two games before the tournament helped us grow our confidence levels and build great team chemistry. Of course, every game counts, especially in the first round and we did beat Finland, Greece, France, and we told ourselves even more that we have a chance. But we knew it wasn't going to be easy. In the Second Round, we knew that if we lose, we would go home. One of the toughest games for us was the one against Latvia. That is for sure.
- Head coach Igor Kokoskov had a very big role in making the team grow in the last couple of months. What do you think he brought to the team?**
- He brought his experience and his American mentality. We had a lot of systems and plays to run and everybody felt very comfortable in them. Our game was fast, a little bit up-tempo but we also knew how to play in the half court too. I have known him from my rookie years when I was with the Phoenix Suns and he is such a great coach. He brings some calm vibes to the environment that everyone needs on and off the court. He is always under control, he has things under control. Every player on the team, from the captain to the guys who spent less time on the court, believed that we could make it. And we did it.
